PROFILE

In 2019, I enrolled in Istanbul Okan University with 100% scholarship. After completing the preparatory and first year at Okan University, I transferred to Marmara University in 2021 and graduated from the computer engineering department in June 2024. I am currently interested in artificial intelligence, and I am also realizing projects in c#. Since 2020, I have been producing content on social media. I am also a writer. I have completed five books, and I am writing my sixth book. I am eager to learn, ambitious, talkative. Expressing myself well, being patient and being creative are some of the qualities that my identity as a writer has given me.

EDUCATION

MARMARA UNIVERSITY   Istanbul
Computer Engineering Student   *2021 – 2024*
  - GPA: 3.35

ISTANBUL OKAN UNIVERSITY   Istanbul
Computer Engineering Student   *2019 – 2021*
  - English Preparatory School and First year at computer engineering

COMPETITION EXPERIENCE

TUBITAK   2017
  Regional Finals | Biology

TEKNOFEST   2018-2019
  Finalist at "Technology for Humanity" category in 2018.
  Finalist at "Technology for Humanity" and "Unmanned Underwater Vehicle" categories in 2019.

TUBITAK   2023
  Research project supported in 2209 competitions

WORKING EXPERIENCE

SOFTWARE DEVELOPER
MATRIKS BILGI DAGITIM HIZMETLERI   May 2024 – Present
  - Developed and maintained desktop applications using WPF and C#.
  - Designed and updated application screens, enhancing user interfaces through modifications in XAML files.
  - Collaborated with the software development team to implement new features and resolve issues, ensuring smooth and efficient application performance.

INFORMATION TECHNOLOGIES INTERN
DOĞUŞ YAYIN GRUBU   October 2023- February 2024
  - Resolved software and hardware issues for end users and managed Sentinel One installations.
  - Assisted in network operations including switch replacements, port definitions.
  - Performed system backups and tested virtual machine installations and definitions.
  - Worked on Active Directory for user management, including password resets and account unlocks.
  - Participated in cybersecurity activities, learning about threat detection, confirmation, and prevention processes.

INFORMATION TECHNOLOGIES INTERN
ESIGORTAN   July - August 2023
  - Managed and monitored technological processes during the development of the Sigorta7 website.
  - Tested and reported errors in web services, followed up on resolution processes.
  - Analyzed database management systems and conducted API tests.

DATA SCIENCES INTERN
IFS   July - August 2022
  - Received SQL training and managed database tables using IFS Developer Studio.
  - Performed table associations, data retrieval, and query combinations using Developer Studio and PLSQL.
  - Completed a project for the "Magnolia Book Store" data input-output system and designed related reports.

SKILLS & PERSONAL

Languages: Turkish (native), English (advanced), French (beginner)
IT: C, Java, Python, PL/SQL, C#, ASP.NET MVC, WPF
Interests: Reading book, writing book, producing social media content, listening to music and podcasts, playing violin, doing yoga, watching films and series, making desserts, day trips to the cities.
