

MÜRÜVVET DEMİRKUBUZ

Senior AI Specialist

muruvvetdemirkubuz@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [Blog](#)

PROFILE

Senior AI Specialist specializing in **intelligent automation**, **LLM-powered systems**, and financial technology platforms; currently pursuing an **M.Sc. in Data Science for Economics and Health** at the University of Milan. **Leads a five-person AI engineering team at Matriks Finansal Teknolojiler**, building production AI tools including LLM-based chatbots, **MCP servers**, **Vector Database**-powered document search, and **Semantic Router**-driven query classification. Experienced in full-stack development with **React**, containerization with **Docker**, and **.NET**-based real-time financial systems.

WORK EXPERIENCE

Senior AI Specialist	May 2024 – Present
Matriks Finansal Teknolojiler	Istanbul
- Lead and manage a five-person AI engineering team, overseeing design, development, and delivery of internal and client-facing AI-powered tools and automation systems. - Built a production LLM-based chatbot platform with prompt engineering, RAG, and multi-agent orchestration. - Built and published an MCP server, enabling tool integration for AI agents across real-world data sources. - Implemented document search using Vector Databases for semantic similarity search across large knowledge bases. - Integrated Semantic Router to classify and route user queries for accurate intent detection and optimal model selection. - Developed responsive web applications using React, collaborating closely with design and product stakeholders. - Designed and managed containerized deployment pipelines using Docker, improving system reliability and development workflows. - Previously developed and maintained .NET/WPF desktop applications for real-time financial market data analysis. - Contributed to crypto project backends: built RESTful APIs, managed MSSQL schemas, and implemented messaging systems using RabbitMQ.	
Information Technologies Intern	October 2023 – February 2024
Dogus Yayın Grubu	Istanbul
- Resolved software and hardware issues for end users; assisted in network operations, system backups, and virtual machine testing. - Managed Active Directory for user administration, including password resets, account unlocks, and access control.	
Business Analyst Intern	July – August 2023
Sigorta7	Istanbul
Coordinated cross-functional development activities for the Sigorta7 website, tracking progress and ensuring alignment between technical and business requirements. Tested and documented errors in web services, followed up on resolution processes.	
Data Science Intern	July – August 2022
IFS Türkiye	Istanbul
Developed SQL-based solutions using IFS Developer Studio and PL/SQL, including table design, and data associations.	

EDUCATION

University of Milan (Università degli Studi di Milano)	Milan
M.Sc. Data Science for Economics and Health	2026 – Present
Marmara University	Istanbul
B.Sc. Computer Engineering	2019 – 2024
- GPA: 3.35 / 4.00 - Graduation Project: Improving Customer Experience with Intelligent Order Management and Data Mining Techniques in Restaurant Businesses	

RESEARCH & COMPETITION EXPERIENCE

TEKNOFEST	2018 – 2019
Finalist in the "Technology for Humanity" and "Unmanned Underwater Vehicle" categories. (Served as software developer.)	
TÜBİTAK 2209 – University Research Projects Program	2023
Research project selected and funded under the 2209 undergraduate research support program.	

TECHNICAL SKILLS

Languages & Frameworks: C#, .NET Framework, WPF, Python, React
AI & LLM: LLM integration, RAG, multi-agent systems, MCP, Vector Databases, Semantic Router, prompt engineering
Infrastructure & Tools: Docker, Vercel, MSSQL, PL/SQL, Git, REST APIs, RabbitMQ
Languages: Turkish (native), English (advanced), French (beginner), Italian (beginner)
